

INSTRUCTIONS 1. Before administering any vaccines, give the parent/guardian all appropriate copies of Vaccine Information Statements (VIS) and make sure they understand the risks and benefits of the vaccine(s).

- 2. Update the patient's personal immunization record card.
- Record the generic abbreviation for the type of vaccine given (e.g.: DTaP-Hib, PCV), not the trade name.
 Record the publication date of each VIS as well as the date it is given to the patient.
 For combination vaccines, fill in a row for each separate antigen in the combination.

- 6. Give MCV4 via the IM route and MPSV4 via the SC route.
 7. Give TIV via the IM route and LAIV intranasally (IN).

Clinic Name/Ad	dress		_								
			Patient Name: Birth Date: Record #:								
Vaccine	Type of vaccine ¹	Date given (mo/day/yr)	Route	Site given	Vaccine			Vaccine Information Statement		Signature/ initials of	
	(generic abbreviation)			(RA, LA, RT, LT)	Lot #	Mfr.	Expiration Date	Date on VIS ²	Date given ²	vaccinator
